[illegible]

**Turnaround Times:** Listed turnaround times apply to all samples received before 12pm on a given working day. Any samples received after 12pm may carry over to the next available laboratory run on the next working day.

**Additives:** If your sample has additives, please provide the list of ingredients in the comments section of your request form.

Note: Testing will be unaccredited, and we cannot promise that honey with additives will run through our instrumentation successfully.

**Sample Volumes:** Please provide a minimum sample of 50g for testing. Refer to our tech note “Tests and Sample Volumes” to find the additional amount of sample needed per test.

**Samples** will be retained for 4 weeks following testing. On disposal samples may be combined and result in bulk honey be made available to Analytica staff for personal use. For test prices, turn-around times, and other information visit [www.analytica.co.nz](http://www.analytica.co.nz) or telephone 07 974 4740.
